THE MOUNTAIN UNIVERSITY ON YOU TUBE

The Edolo Campus of the Faculty of Agriculture has set up a "YouTube Channel" showing videos related to the activities and events organized by the Undergraduate Course in Conservation and Sustainable Development of Mountain areas and the Interdepartmental Centre Ge.S.Di.Mont.

Currently there are three videos which present the course, the speeches recorded during the conference "*Mountains: future scenarios and opportunities for young farmers*" held in Edolo on 8th October 2011 and the recording of the seminar "*A Practical Approach to the Development of tourism in the mountainous Areas of Italy*" held in English on 27th October 2011.

This is a first step to allow the activities organized by the Mountain University to be followed on-line especially for those who want to watch them again or to see these interesting events for the first time. New videos and multimedia content specifically designed to improve teaching within the degree course will soon be added in order to increase contact with all those who deal with issues related to the mountains.
