Are pleased to invite you to

Smart mountains for tomorrow

A forum/event jointly organised by Smart Altitude, EUSALP and OCOVA

10 May and 11 May 2021 – Les Orres

on site at Espace Rencontres & Culture, 05200 Les Orres, and by videoconference

Monday 10 May – Ecological and tourism transition: achievements, perspectives & strategies for the mountain of tomorrow

9:00-12:45: Smart Altitude: achievements and perspectives – presentation of Smart Altitude project achievements; exchanges on other related projects and initiatives; round table on the dissemination of good practices at Alpine scale

14:00-15:10: Round table of key players in industry, research and innovation – visions for the future

15:10-17:00: Round table of Regional, National and European decision makers – strategies for the deployment of the ecological and tourism transition in the Alpine space

Tuesday 11 May – Innovative technologies for mountains of tomorrow

9.00-11.30: Infrastructure management - Case studies and state of the art: water management; energy management; energy optimisation of tourist accommodation; supervision and control services for communities

11:30-12:45 : Decarbonised intra-resort and inter resort-valley-urban mobility

14:00-15:40: RE production and storage and optimisation of local resources

15:40-17:15: Digital technologies for attractiveness and safety
