

NEWS HIGHLIGHTS

Subscribe to UNIMONT's Telegram channel: stay updated on all our initiatives!

The Telegram channel of UNIMONT, hub of the Milan University, will allow you to be updated in real time on initiatives dedicated to the development and enhancement of mountain territories!

UNIMONT reports a call for papers on "Woodland Resurgence and Sustainability in Mountains—Patterns, Drivers, and Social-Ecological Consequences"

What drives the resurgence of woodlands in mountain areas, and under what conditions can it best benefit local communities and ecosystems? Mountain Research and Development invites systematic assessments of innovative interventions or action research, empirical studies and meta-analyses on trends, drivers, and consequences of woodland resurgence, as well as review-based agendas for future research, policies, or action.

Final seminar of the Fagio.Lo Project for "Research, characterization and enhancement of traditional Lombardy bean cultivars"

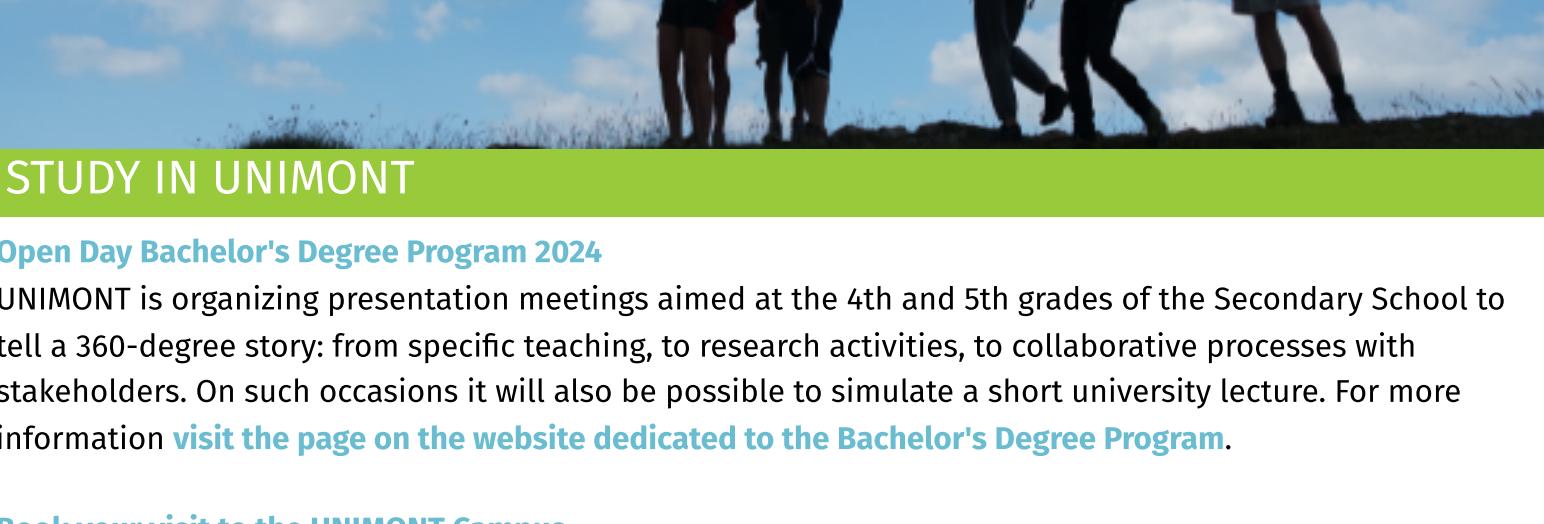

The Fagio.Lo project, financed under the 2014-2020 Rural Development Program of the Lombardy Region, aimed to identify, characterize and promote bean cultivars traditionally grown in mountain areas of Lombardy. At a concluding seminar, researchers from the University of Milan and technicians from Rete Semi Rurale presented the results of the activities conducted.

Skills for Mountains in Transitions: UNIMONT's experience shared internationally

The conference "Skills for Mountains in Transitions," which took place on 11/21/2023 in Brussels (BE), featured the participation of Professor Anna Giorgi, who was invited to share at the international level the experience of UNIMONT, Milan University hub, as a promoter of skills for the sustainable development of mountain areas.

Concluding event of the Interreg Italy Switzerland ConValoRe project

On Wednesday, November 15, 2023, the concluding event of the Interreg Italy Switzerland ConValoRe project in which UNIMONT is a partner was held in Bursio (CH). The Interreg Italy Switzerland ConValoRe Project over the last three years has implemented activities related to cultural heritage and landscape aimed at strengthening the attractiveness of the territories of Valtellina and Valposchiavo. Over the course of three years, "ConValoRe" has promoted initiatives for the conservation, knowledge and sustainable enhancement of the common environmental and cultural resources of these territories, which are not always known to residents and tourists.

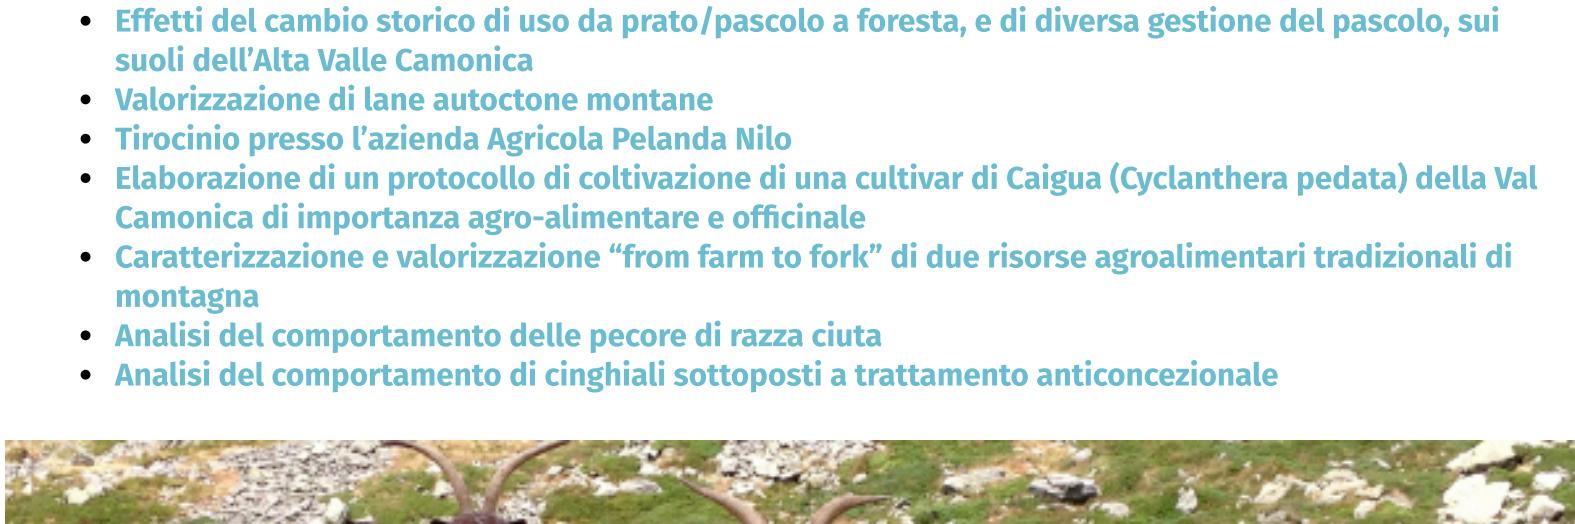

AGRITECH

Agritech – the National Centre for Agricultural Technologies is a national project financed with NRRP funds that involves 28 universities, 5 research centres, and 18 companies. The UNIMONT centre of the University of Milan will operate within Spoke 7, focusing on mountain areas with the aim of promoting a multifunctional production system that favours the agro-ecological and socio-economic sustainability of these territories.

Contribute to the mapping of Italian plant agro-biodiversity: report local varieties in your area

UNIMONT, a Centre of the University of Milan, is mapping and characterizing traditional Italian local varieties through a citizen science activity, i.e. involving citizens in the collection of scientific data in order to integrate the map of Italian plant agro-biodiversity. This initiative is supported by the NRRP Agritech project - National Center for Agricultural Technologies.

CALLS, INTERSHIPS and JOB OPPORTUNITIES

UNIMONT notifies:

- [Work with us: job opportunity open to collaborate on the MountResilience Project](#)

Internships for students of the Undergraduate course in Development and Protection of the Mountain Environment.

- [Studio delle caratteristiche della componente organica e degli acidi organici in lettiera forestali](#)
- [Effetti del cambio storico di uso da prato/pascolo a foresta, e di diversa gestione del pascolo, sui suoli dell'Alta Valle Camonica](#)
- [Valorizzazione di lane autoctone montane](#)
- [Tirocinio presso l'azienda Agricola Pelanda Nilo](#)
- [Elaborazione di un protocollo di coltivazione di una cultivar di Caigua \(*Cyclanthera pedata*\) della Val Camonica di importanza agro-alimentare e officinale](#)
- [Caratterizzazione e valorizzazione "from farm to fork" di due risorse agroalimentari tradizionali di montagna](#)
- [Analisi del comportamento delle pecore di razza ciuta](#)
- [Analisi del comportamento di cinghiali sottoposti a trattamento anticoncezionale](#)

NEXT EVENTS

December 11, 2023 | Interreg Alpine Space Transtat project: update webinar

The Interreg Alpine Space TranStat project aims to develop new socio-economic models that enable ski resorts and their territories to address the effects of climate change in mountain areas through a participatory approach involving local stakeholders in each Living Lab. During the online webinar, the work done so far in the 10 Living Labs will be presented, with a focus on the drivers of change identified in ski resorts, and participants will be involved in a group activity to familiarize themselves with these issues.
