ASSESSING AND MONITORING FOREST BIODIVERSITY

MAY, 7TH and 8TH 2024

PROGRAMME

MAY, 7th 2024 | 2.30 - 4.30 PM (GMT+1)

Seminar open to public and accessible online and in presence
at the UNIMONT Centre

MAY, 8th 2024 | 9.00 AM - 1.00 PM (GMT+1)

Field Trip for MOUNTAINSIDE students only

INTRODUCTION

Matteo Vizzarri - University of Milan

SPEAKER

Giovanni Santopuoli - University of Molise

The seminar will introduce and describe some innovative tools for monitoring forest resources, with particular focus on forest biodiversity through tree-related microhabitats. The main topics are: remote sensing, Climate-smart forestry, Integrate forest management. For each of them, at least one case study highlighting main findings and weaknesses will be showed.

The field activities will focus on the identification of tree-related microhabitats in the forest.
